

ATS-309 Series

Cylindrical Package AT-Strip Crystals

Frequency Range	4.000~70.000 MHz
Oscillation Mode	4.000~36.000 MHz (Fundamental) 30.000~70.000 MHz (3 rd Overtone)
Frequency Tolerance	±50ppm@+25
Frequency Stability	± 50ppm
Operating temperature range	-10 ~ +60
Equivalent series resistance	As per Chart below
Load Capacitance	Customer Specified
Drive Level	100 μ W Max.

All specifications are subject to change without notice.

Option: *Tighter Tolerance, Tighter Stability, Extended Temperature
